

Elmos Foundation at a glance

Foundation: 2016
Founder: Dr. Klaus Weyer, Prof. Dr. Günter Zimmer
Board: Dr. Arne Schneider, Walter Kuffner, Dr. Jan Dienstuhl
Managing Director: Sabine Montino

The **Elmos Foundation** is based on the founders' conviction that corporate success and social responsibility are interconnected. In order to fulfill this charitable commitment successfully and by combining existing strengths, the Elmos Foundation was established in 2016. The Foundation's goal is to support charitable causes that are either related to the company Elmos Semiconductor SE in terms of content or region or that make a contribution to fighting poverty in the world.

With this commitment the Elmos Foundations makes a significant contribution to the Sustainable Development Goals of the United Nations. Noteworthy are the following SDGs:

“For us, entrepreneurship and social responsibility go hand in hand. The Elmos Foundation will pursue this basic idea by supporting various initiatives and sustainably promoting the common good.”

Dr. Weyer on behalf of the founders

In the following, exemplary projects are listed and assigned to the three foundation purposes that are or have been promoted/supported by the Elmos Foundation.

Promoting research, science and education
